rethink maths

You will need:

- Scissors
- Reusable adhesive (Blu Tack) or lollipop sticks
- Card (optional)

Sing, move and retell!

Movement game: children tiptoe like a cat, scurry like a mouse, and freeze when the singing stops.

.

Talk together:

- Where has the cat been?
- Where is the mouse going?
- What can you see in the castle?

Make it easier: offer two choices, model the words, and let children point instead of speaking.

Make it trickier: ask children to give a friend a positional instruction.
